

Královice

This time, our nature path leads us to the small village of Královice, close to Slaný, to where we can go by foot

The way starts in the highs of Slaný, just follow the sign !

Leave the old house on your right side...

and start walking on what looks like an highway for pedestrians.

The way continues
under a train bridge ...

then by a small
pond....

(To my
disappointment,
no crocodiles in
the pond)

...and back again in
the countryside.

Hiding behind a small hill is the little village of Kralovice

We didn't enter the town, just had a nice encounter with the local life

And the end of the day was the end of our journey - with a beautiful sunset !
